

Special Features:

- 2 compartments - entry compartment and trapping compartment
- 2 one-way doors
- A sliding door to place food and also easily remove birds
- Traps approximately 12 sparrows at one time

To Use:

- Bait the trap - with bread, wheat or grain
- Place bait in the trap, near to and leading into the trap
- Open the sliding door and place more food and water in the second trapping compartment
- Birds are enticed in through the one way door system to the areas inside, where they cannot escape
- Sparrow call bird or an electronic sparrow caller can also be used

Check the trap regularly to ensure there is sufficient food and water and to remove trapped birds.
